NOTES:

A It is the clients responsibility to obtain Vosa approval by completion of form VT1.
Before altering buildings, purchasing and installation of any test equipment, you should consult the Local Vosa Office to ensure that your proposals are acceptable - Possession of premises & equipment which appear to be suitable does not mean that authorisation will be granted. B It is the Clients/ Architects responsibility to ensure all details are correct, and all dimensions to be checked on site before commencement of any work. C To be used in conjunction with individual site layout drawing. D Where relevant, all dimensions are to finished floor level.
