ON STENHØJ
LIFTS

ATL Bay with Stenhøj 4 tonne lift (model 4026-47)

ATL Lift with jacking beam and LED lighting kits

Jacking beams fitted to Stenhøj ATL lift

STENHØJ MAJOR MOT LIFTS

Stenhøj Major MOT & ATL lifts are CE approved and feature robust recessed turnplates (MOT Models) and pneumatic play detectors (ATL Models). Stenhøj products are designed and built to give years of service! Lifts can either be surface mounted or recessed and drive through.

- 4024-43 Class 4 MOT Lift, 4 tonne with 4260mm platforms (shallow recess model)
- 4026-42 Class 4 MOT Lift, 4 tonne with 4180mm platforms
- 5230-51 Class 4 & 7 MOT Lift, 4 tonne with 5100mm platforms

STENHØJ MAJOR MOT LIFTS

- 4024-43 (4024BS) Class 4 ATL Lift, 4 tonne with 4260mm platforms (narrow version)
- 4026-43 (4026BS) Class 4 ATL Lift, 4 tonne with 4260mm platforms
- 4026-47 (426BL) Class 4 ATL Lift, 4-tonne with 4680mm platforms
- 4030-54 (430BL) Class 4 & 7 ATL Lift, 4-tonne with 5350mm platforms
- 5230-60 Class 4 & 7 ATL Lift, 5.2 tonne with 6000mm platforms
- 6530-60 Class 4 and 7 ATL Lift, 6.5 tonne with 6000mm platforms
- 5230-54 Class 4 & 7 ATL & Wheel Alignment Lift with 5350mm platforms and slip plates

* SUBJECT TO PROOF OF MAINTENANCE CONTRACT

Stenhøj ATL Lift in 130mm purpose built recess

2 tonne air operated jacking beam

Class 4 & 7 ATL Scissor Lift with 5 tonne lifting capacity

ATL SCISSOR LIFTS

We offer a range of MOT and ATL Scissor lifts to suit both class 4 & 7 MOT applications. We can offer these models with wheel alignment capability and integral scissor lifting mechanisms. ATL Scissor lifts are the ideal choice for narrow width bays and can be surface mounted or recessed.

- **GEM4ATL Class 4 ATL Scissor Lift, 4.5 tonne with 4500mm platforms**
- **GEM5ATL Class 4 & 7 ATL Scissor Lift, 5 tonne with 5200mm platforms**

STENHØJ

Trust the no. 1 Supplier of MOT Bays in the UK...

JACKING BEAMS FOR MOT

We supply UK manufactured jacking beams which are available as either manual or air operated. All jacking beams are fully approved for MOT testing purposes. We can supply models in either 2 tonne (class 4) or 2.8 / 4 tonne (class 4 & 7).

In addition to jacking beams supplied for our own lifts, we can also supply jacking beams for many other lifts. A full range of accessories are also available including steel and rubber raiser blocks and air kits.

LIGHTING KITS FOR LIFTS

We can offer LED lighting kits with magnetic fixings in 1.6m tube lengths. These IP54 rated, energy-efficient lights are brighter than fluorescent tubes, very sturdy and are guaranteed for 10 years!

Stenhøj pit play detectors and turnplates

Sherpa AS2 play detectors

Stenhøj handlamp for operation of play detectors

Sherpa remote control handlamp

STENHØJ PLAY DETECTORS

Stenhøj pit play detectors are pneumatically operated and are VOSA Approved for MOT testing purposes.

- **STENPD Class 4 & 7 pit play detectors with 7.5 tonne drive over axle load and a stationary axle load of 3 tonnes**
- **Wired remote control with torch for operation**
- **Supplied with friction checker plate for opposite side of pit**
- **Can be fitted either side of the pit (depending on location of control box)**

SHERPA PLAY DETECTORS

Sherpa pit play detectors are hydraulically operated and are VOSA Approved for MOT testing

- **SHERPA AS2 Class 4 & 7 pit play detectors with 7.5 tonne drive over axle load and a stationary axle load of 4 tonnes**
- **Wireless remote control with torch for operation**
- **Supplied with friction checker plate for opposite side of pit**
- **Can be fitted either side of the pit (depending on location of control box)**

MOT TURNPLATES

For MOT testing on a pit, a set of turnplates are required. We can supply heavy duty bearing turnplates for this purpose.

- **RP9014 MOT approved class 4 & 7 heavy duty turnplates**
- **EQTP1 MOT approved class 4 & 7 heavy duty turn plates which can be used in pit where trucks and buses are also serviced**

Litecheck2 with 3m of recessed rails

Laser unit as fitted to Litecheck DL models

GEMCO Litecheck4 double laser with 3m of rails

PLA25AL MOT headlamp aligner

GEMCO HEADLAMP ALIGNERS

All headlamp aligners supplied by GEMCO are VOSA Approved for MOT testing purposes!

- **DUNLOPLITECHECK2** Headlamp aligner with 3 metres of rails (yellow RAL1018)
- **GEMCOLITECHECK4** Headlamp aligner with 3 metres of rails (red RAL3013)
- **GEMCOLITECHECK4DL** Dual Laser headlamp aligner with 3 metres of rails (red RAL3013)

Rails can be surface mounted or recessed. Units can also be supplied in special colours made to order.

Additional rail sections (3240018) are also available in 1.5m sections.

LET HEADLAMP ALIGNERS

L.E.T. Automotive is a market leading, worldwide supplier of headlamp aiming systems. It develops state-of-the-art light sensor technology.

- **PLA25AL** Advanced, electronic headlamp aligner with 2.5m of surface mounted HD rails
- Complete with RS232 port for data
- Comes as standard with protective dust cover
- VOSA Approved for MOT testing purposes

A VGA output, VGA screen, ticket printer (serial or bluetooth) and laser aligner are also available as optional extras

WHAT ARE OPTL AND ATL?

In 2006 the option to install 'Automated Test Lanes' was introduced by VOSA. Existing MOT stations could then simultaneously upgrade their equipment and reduce labour costs by using one person. The additional equipment required was a lift or pit with a play detector, pedal depressor and a pair of convex MOT mirrors (OPTL).

All new MOT applications wishing to 'One Person Test' are now required to go full ATL. This also includes a computerised brake tester with weigh scales in addition to the items required for OPTL. Traditional '2 Person' MOT testing with the appropriate equipment continues, and new sites may still apply for this.

GEMCO Equipment Ltd has over thirty years experience in providing MOT bays for independent garages, franchised dealers and fast-fits throughout the UK.

SURVEY AND DESIGN

Are you looking for a new ATL/MOT bay?

We have over 30 years of expertise in the MOT market, so call us and we will arrange a FREE site visit and survey.

Our CAD office can produce detailed layout plans for submission to VOSA for your MOT approval. We are fully acquainted with all the current regulations!

CIVIL WORKS AND ELECTRICS

We can offer a total solution for your MOT bay! We work with our authorised and fully qualified sub-contractors, who will carry out all necessary site works.

Our builders will cut recesses and ducts for lifts, brake testers and headlight testers. Our NICEIC electricians will provide all the required electrical supplies and connection for your new equipment.

Alternatively, we are pleased to provide the information for you to pass on to your contractors.

INSTALLATION

From the moment the equipment is delivered to your site on vehicles with offloading facilities, we will install speedily and efficiently. It is our goal to deliver and install on time so you may maximise your revenue.

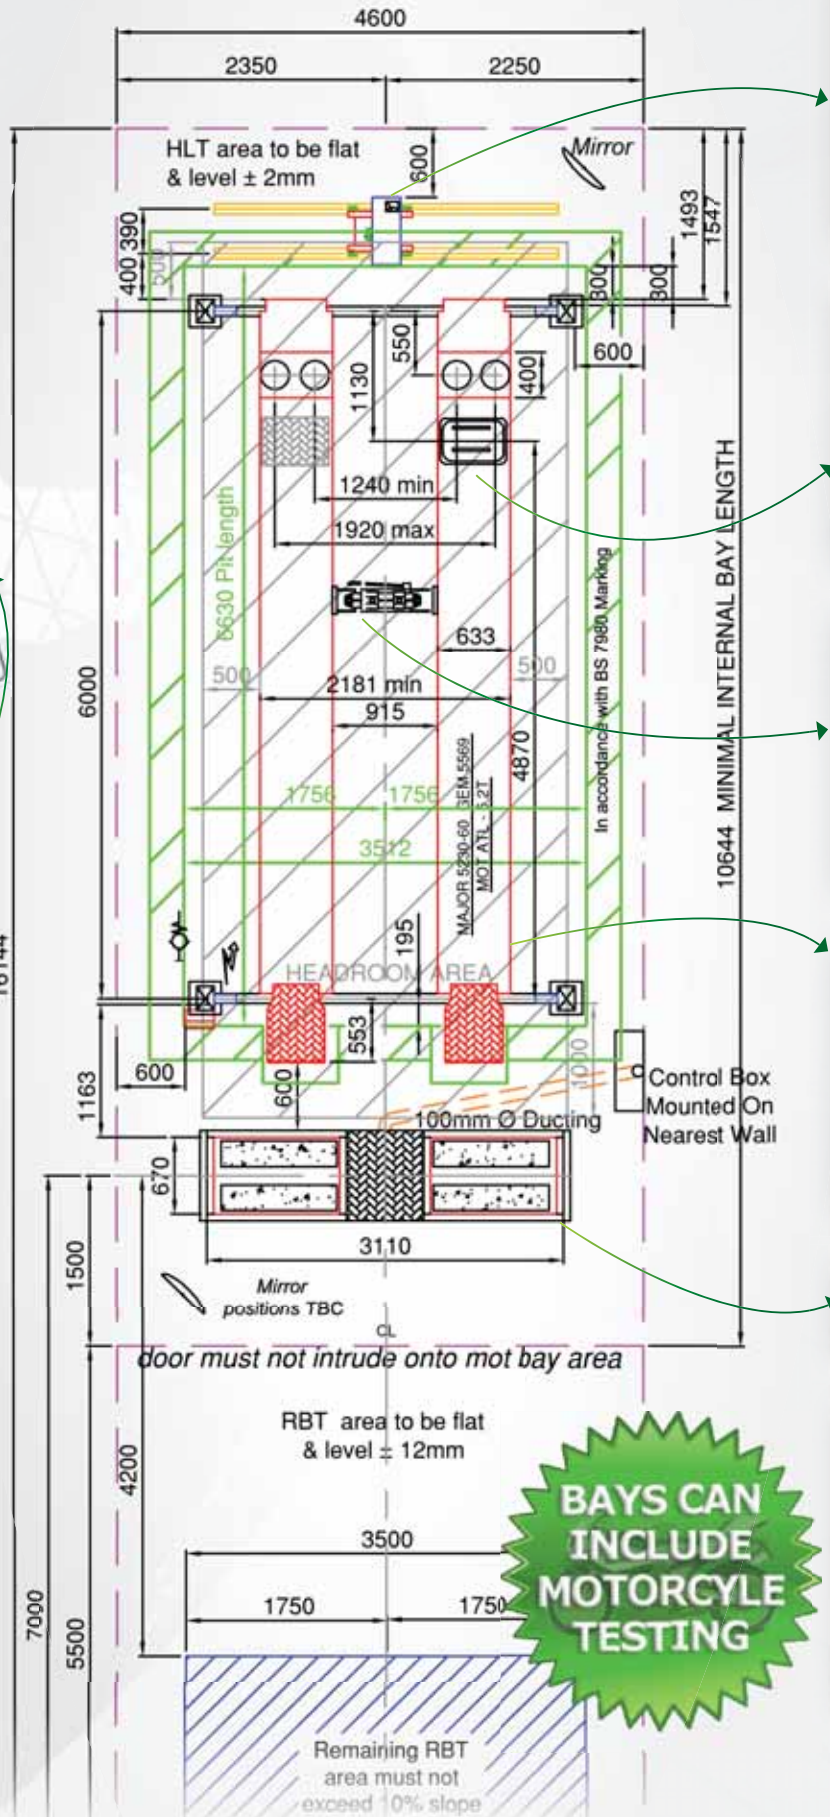

We will of course provide all necessary certification for you to obtain your VOSA approval.

FINANCE

We are able to offer competitive lease packages via reputable finance companies over 1-5 year periods. Lease packages can also include maintenance and extended warranty packages.

Class 4 MOT Brake Tester

PDA for operation of roller brake tester

BM AUTOTEKNIK MOT & ATL BRAKE TESTERS

BM is one of the leading manufacturers of brake testers in the world and provide hi-tech equipment for all classes. All the latest ATL equipment is controlled by a PDA and either the PC on a gas analyser or a separate PC. VOSA and GEA engineers visited the BM factory to gain approval for their ATL Brake testers. These computerised brake testers automatically guide the operator through the test and by using the weigh scales calculate brake efficiency.

MOT BRAKE TESTERS

- **BM7010 Class 4 MOT brake tester with twin beds. Recess size 2 x 965mm (l) x 855mm (w) x 250mm (h)**
Retrofit frames for the BM7010 are available to suit the Crypton 660 and the Kismet 1300.
- **BM9010 Class 7 MOT brake with twin beds. Recess size 3230mm (l) x 790mm (w) x 495mm (h)**

ATL BRAKE TESTERS

- **BM4010-4 Class 4 ATL brake tester single bed. Recess size 2330mm (l) x 635mm (w) x 285mm (h)**
- **BM4010-7 Class 4 & 7 ATL brake tester single bed. Recess size 2330mm (l) x 635mm (w) x 285mm (h)**
- **BM9010ATL Class 4 & 7 ATL brake tester single bed. Recess size 3230mm (l) x 790mm (w) x 495mm (h)**

DUNLOP ATL BRAKE TESTERS

Dunlop brake testers are manufactured in Spain to UK Specification and are fully VOSA Approved for MOT testing and can also include motorcycle testing.

- DRBTATL4 Class 4 ATL brake tester single bed. Recess size 2360mm (l) x 720mm (w) x 290mm (h)
- DRBTATL7 Class 4 / 7 ATL brake tester single bed. Recess size 2970mm (l) x 720mm (w) x 290mm (h)

SHERPA MOT & ATL BRAKE TESTERS

Sherpa is a German based brake tester manufacturer, and like GEMCO, is also part of the Stenhøj Group. Sherpa have been producing roller and plate brake testers for car and commercial vehicles since 1993 and are one of the leading manufacturers worldwide as a result of their knowledge and commitment to quality. VOSA Approved for MOT Testing.

- BPS Kompakt 3.5 MOT Class 4 brake tester. Recess size 2320mm (l) x 680mm (w) x 240mm (h).
- BPS Kompakt 6.0 MOT Class 4 & 7 brake tester. Recess size 2925mm (l) x 680mm (w) x 240mm (h).
- BPS Kompakt 3.5 ATL Class 4 brake tester. Recess size 2320mm (l) x 680mm (w) x 240mm (h).
- BPS Kompakt 6.0 ATL Class 4 & 7ATL brake tester. Recess size 2925mm (l) x 680mm (w) x 250mm (h).

Quality Equipment built to last...

OMITEC OM2500/COM 2

BOSCH BEA850 1

GAS AND SMOKE EMISSIONS EQUIPMENT

All equipment is fully approved for Class 4 and 7 MOT testing to the latest VOSA specifications. We will be pleased to arrange free demonstrations for all emission analysers at your site!

A wide range of accessories are available for all emissions units including wireless control, RPM adaptors and probe kits for trucks and buses.

1 BOSCH BEA850
Cabled combined gas and smoke analyser unit.

The BOSCH BEA850 emission analyser comes as standard with a 17" TFT monitor, remote control and printer with cover. The units can be easily upgraded for diagnostics with a KTS module (optional extra).

Specially designed oil temperature probe included

2 OM2500/COM OMITEC
OmiEmissioncenter combined gas and smoke analyser.

OM2500/PCG OMITEC
Gas analyser with PC and trolley. Omitec emission analysers as standard come with 17" flatscreen pc display units and printer.

The above units are housed in rugged, purpose built trolleys.

CRYPTON CCP700

3

3 CRYPTON CCP700/DSP700

Bluetooth and cabled combined gas and smoke analyser / smoke analyser unit.

CCP700-B-EN560

Bluetooth combined unit

CCP700-C-EN560

Cabled combined unit

DSP700-B-EN500

Bluetooth diesel smoke analyser

DSP700-C-EN500

Cabled diesel smoke analyser

All units are PC based and are supplied with trolleys.

BOSCH BEA350

4

OMITEC OM1500

5

4 BOSCH BEA350

Cabled combined gas and smoke analyser unit (Non-PC Based)

The BOSCH BEA350 emission analyser is a processor based machine which is fully approved for MOT testing and easy to use.

The unit also features a brilliant colour TFT screen and an integrated thermal printer.

5 OMITEC OM1500

The OmiSmoke diesel emission tester, which is Cat A and B approved, is a hand-held smoke meter with integrated thermal printer built into the handset.
