

SOMERS MOBILE COLUMN -WIRELESS-

Features

- ◆ 7.5 tonne lifting capacity per column
- ◆ Complete flexibility and manoeuvrability within the workplace
- ◆ No interconnecting cables - avoiding health and safety issues with slips, trips and falls
- ◆ Radio synchronisation and communication between columns
- ◆ Available in 4, 6 or 8 column configuration
- ◆ Lifting operations can be controlled from any column
- ◆ Only requires a single phase 230v power supply
- ◆ Electronic measurement by inductive sensors
- ◆ Electronic shutdown if obstruction detected
- ◆ Hardened steel screw with low friction recirculation ball nut leading to a longer life and low maintenance
- ◆ Large number of lifting cycles between charges
