BRADCOMBI3 - EURO 6 Approved Combined Gas & Smoke Emission Analyser (Cabled)

Product Description

The Bradbury BRADCOMBI3 Combined Emission Analyser is a high specification PC based unit, which is suitable for emission analysis of both petrol and diesel vehicles (MOT Approved by the DVSA). A high-tech PC, wireless keyboard, wireless mouse, printer and a large 21.5" easy-to-read display are included as standard.

Key Features

- Category A + B GEA Approved for MOT Testing
- Euro 6 compliant with latest software and 2018 EGA Update (Petrol Data).
- 13v Low voltage (site-safe) cables to smoke head and gas analyser which is a tried and tested method, which avoids communication issues.
- Fast start up time and operation.
- Fast nationwide on-site support by dedicated UKAS accredited engineers.
- Off the shelf availability of spare parts
- Robust cabinet offering protection to the hardware with storage cupboard.
- Smoke head can be left in the test area ready for diesel testing.
