

### 099351 AUTOPSTENHOJ Maestro 2.32F NxT 3.2 Tonne Two Post Lift (Baseless)

UPLIFTING COMPANY  
**AUTOP STENHOJ**

Made In Denmark

← Baseless with overhead portal

← Asymmetrical post design

OPTIONAL LED lighting kit (2 tubes) with magnetic fixings →

The AUTOPSTENHOJ 099351 Maestro 2.32 F NxT two post lift features asymmetrical posts which are very stable (welded not bent). Quality 3 phase motors power the screw and nut system contained within each post. An internal arm locking system on the arms ensures that 360 degree engagement is achieved.

This lift is suitable for all types of repair and maintenance work on small and large passenger cars, sports cars, 4x4's and small vans (excl LWB).

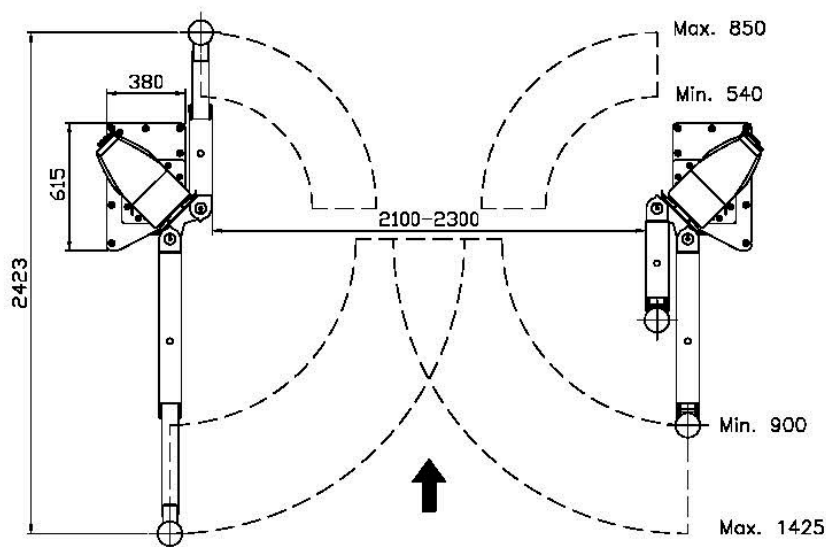

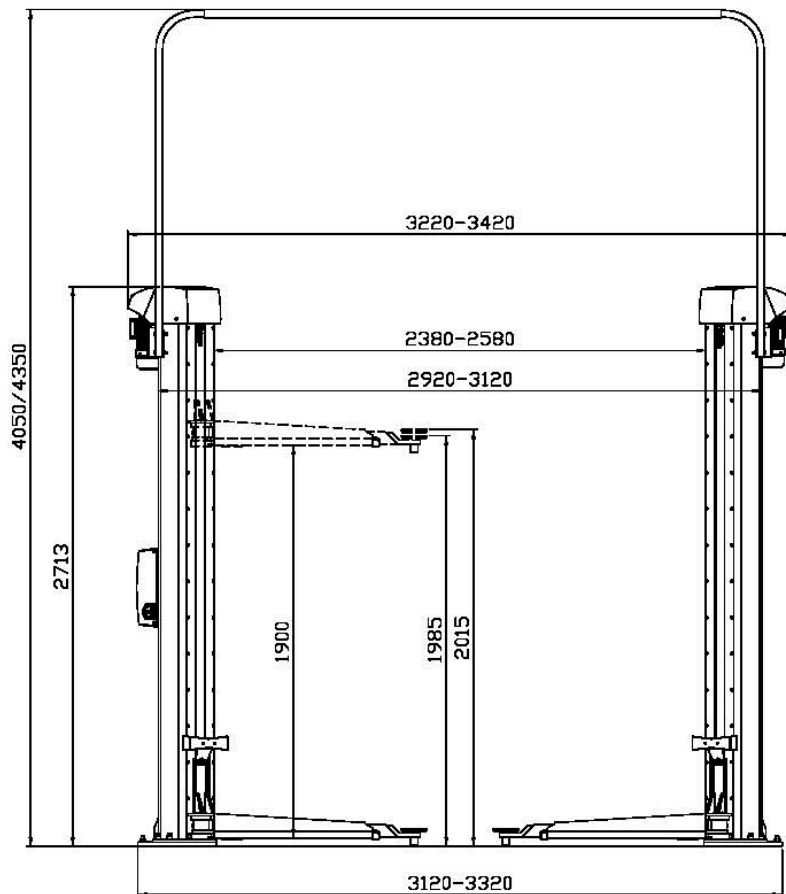

ALL AUTOPSTENHOJ two post lifts are led through a sling purifying plant (according to SA2.50 - ISO-Norm 8501-1:2007), dipped in primer and finally led through an electrostatic powder bake plant.
