

DTM588/DTM590 DUNLOP Commercial Tyre Changer Machines (3 Phase)

The Dunlop DTM588 is a very popular commercial vehicle tyre changing machine for wheels up to 59" diameter. The combination of heavy duty design and robust single-piece frame give this tyre changer a powerful but stable operation.

The DTM588 and DTM590 both feature a dual direction hydraulic motor which provides smooth torque, as well as a hydraulic drive system, clockwise and anticlockwise rotation, self centering hydraulic clamping chuck and hydraulic carriage for positioning, loosening, mounting and demounting.

- **Rim Clamping Capacity:**
DTM588: 14" - 26"
DTM590: 14" - 56"
- **Maximum Wheel Diameter:**
DTM588: 59"
DTM590: 90"
- **Max. Wheel Width (Including Tire):**
DTM588: 30"
DTM590: 43"
- **Motor: 3 Phase 1.5hp**
