

Saving you space and time, GEMCO mobile column lifts feature the best lifting capability for workshops looking to invest in superior quality equipment whilst being mindful of flexibility and budget.

Reliable radio communication and no interconnecting cables make this a versatile lifting solution, with each column capable of lifting up to 7,500kg. Available in sets of 4 (30 tonnes), 6 (45 tonnes) or 8 (60 tonnes) - perfect for busy commercial workshops.

Featuring pallet truck handles for easy manoeuvrability.
